

Product data sheet

LIQUI MOLY Transmission oil "GL 4+ "

Description

LIQUI MOLY Transmission Oil "GL 4+ "

SAE 75W-90, full synthetic, **approvals:** API GL4+, Ford ESD-M2C 175-A, **specifications / manufacturer recommendations:** VW 501 50 (G50), ZF TE-ML 08

Universal use for the latest manual and transaxle transmissions. Liqui Moly recommends this product for vehicles from Audi, Ford EU, the VW-Group and numerous other manufacturers. Ensures exact friction behavior and provides outstanding ageing resistance. Exceeds the tough test requirements demanded by renowned manufacturers. Even under the most difficult conditions and during large temperature fluctuations, it ensures flawless aggregate functioning. Greatest lubrication security, maximum wear protection through large viscosity bandwidth. Ensures easy shifting and smoothest running.

Note: The regulations of the vehicle and transmission manufacturers must be observed. Can be mixed with residual mineral oil that remains in the gearbox / axle drive when the oil is changed., **1l bottle**

Article number:	41129206
Original number:	4434
EAN:	4100420044342
EVP:	24.50 €

Technical data

Range of application	passenger car
Container type	bottle
Content	1.0 l
Type	transmissions
Quality	fully synthetic
Weight	0.855 kg
Viscosity	75W-90
