

AXA Rear Light "Juno"

Description

"Juno" rear lights for e-bikes

Good visibility is half the battle: The compact AXA "Juno" is a rear light that is suitable for use on e-bikes. Thanks to the practical pressure connections, the "Juno" model can be easily connected to a 6-12 V e-bike Battery.

Thanks to its intelligent design, the "Juno" also makes you visible from the side. With the AXA rear light, you are easy to see in traffic when cars or other cyclists approach from behind or when you are approaching an intersection that you are crossing.

As the AXA Rear Light has a generous light cone, you will be noticed from a distance of around 500m. The integrated reflector also helps to further increase your visibility. The rear light can be mounted at a distance of 50 or 80 mm. The material for this is included in the scope of delivery.

Article number:	03113040
Original number:	93929195SC
EAN:	8713249281940
EVP:	17.95 €

Technical data

Design	rear light
Features	reflector
Attachment	carrier 80mm
Operating voltage	6,0, 6,5, 8,0, 12,0 V
Range of application	bike
Main colour	red
Functions	standlight
Illuminant	LED
Material 1	plastic
Weight	0.031 kg
Power supply	E-bike battery
StVZO conform	yes
