

## CONTEC Hub Dynamo "Powerhouse Hub 2+"

### Description

#### Strong & reliable for bright light

Plenty of power for bicycle lighting: With the "Powerhouse Hub 2+", CONTEC presents a dynamo hub whose performance and robustness are convincing. Thanks to its maintenance-free operation, this dynamo ensures that the lighting is permanently powered in any weather and reliably emits powerful light.

Important are the powerful NdFeB magnets, which deliver a high degree of efficiency with a low resistance. Even at low speed, there is enough current to ensure that the front and rear light are continuously lit.

The dynamo hub is intended for disc brakes with a 6-bolt mount. It was designed for a 15 mm thru-axle, but can be converted to 12 mm and a quick release using adapters.

It is intended for wheel sizes from 26 to 29". There are several options for the number of spoke holes: The dynamo hub is available for both 28, 32 and 36 hole flanges.

With its efficient energy production, the CONTEC Powerhouse Hub 2+ sets the bar. With this dynamo hub, the front light and the rear light are always supplied with plenty of energy.

### Technical data

|                       |                            |
|-----------------------|----------------------------|
| Axle                  | 15mm full-floating axle    |
| Mounting              | front wheel                |
| Type                  | hub dynamo                 |
| Brake mounting        | disc - 6-hole              |
| Installation width    | 100 mm                     |
| Main colour           | black                      |
| For wheel             | standard                   |
| Suitable wheel sizes  | 20, 24, 26, 27,5, 28, 29 " |
| Material 1            | aluminium                  |
| Weight                | 0.455 kg                   |
| Hub body material     | Aluminium                  |
| Spoke type            | J-Bend                     |
| Flange diameter       | 66 mm                      |
| Spoke hole diameter   | for 2.00 mm                |
| Electrical power      | 6 V / 3 W                  |
| Brake track           | yes, no                    |
| Number of spoke holes | 36 holes                   |
| Hub model             | Powerhouse 2+              |
