fi'zi:k Saddle "Vento Argo R5"

Description

Made for extended long tours on asphalt - the "R5" of the FIZIK Vento-Argo series. The Argo concept stands for high stability and optimum weight distribution in the road bike saddle. The short-nosed design allows you to sit further forward without putting pressure on sensitive areas of the body. The center channel provides additional relief and ensures good ventilation. Its "Type 1" padding provides the necessary suspension and efficient power transmission at the same time. FIZIK has equipped the "R5" Unisex with a lightweight carbon reinforced nylon scarves and a carbon rail. The frame is made of k:iium, a proprietary metal alloy that is around eight percent lighter than titanium but just as durable.

Article number:	07267230
Original number:	70D7S00A23A22
EAN:	8021890486509
EVP:	99.00 €

Technical data

Width	140.0 mm
Features	cutout, lowering
Range of application	road
Main colour	black
Suspension	no spring
Gender	unisex
Rails diameter	7 x 7 mm
Length	265.0 mm
Material 1	nylon
Cover material	carbon
Rails material	k:iium
Shell material	nylon, carbon
Seatpost diameter from	micro-adjust
Weight	0.235 kg
