CONWAY Electric MTB full suspension "Xyron S 4.0" (#1)

Description

Our "Xyron S 4.0" combines the versatility of an all-mountain bike with the robustness of an enduro bike - perfect for demanding tours and fast descents.

The fully integrated 600 Wh Battery in the closed down tube ensures a clean, slim look that not only looks good, but is also practical. Thanks to fewer components and a quieter drive system, it is particularly impressive because it weighs less! Our "Xyron S 4.0" weighs just 23 kg: a top result!

The combination with the Bosch mid-motor provides you with valuable reserves and powerful support when you need it - uphill, on long distances or simply to spend more time off-road.

Thanks to the SRAM drivetrain and hydraulic Disc Brakes, you have full control no matter how rough the trail gets. The geometry puts you in an active, central position - for efficient climbing and stable handling downhill. And with the hidden kickstand mount, the bike remains well thought-out and functional even in everyday use.

Technical data

Battery capacity	600.0 Wh
Features	suspension fork, damper, electronic sliding aid
Colour designation	bronze matt / darkgrey matt
Main colour	brown
Secondary colour	grey
Travel	160 mm
Gender	gents
Gears	12-speed
Type	full suspension
Wheel size	29 "
Material 1	aluminium
Engine power	250 W
Frame height	42 cm
Weight	23.800 kg
Stem length	40.0 mm
Permissible system weight	140 kg
Chainstay	453 mm
Toptube	595 mm
Wheel distance	1256 mm
Reach	455 mm
Seat tube	420 mm
Seat angle	76.6 °
Stack	630 mm
Steering tube	115 mm
Steering tube angle	63.5 °
