## BRAVE Pedal "Freeride XL"

### Description

#### Platform Pedal from BRAVE

For trails that go over hill and dale, you need reliable pedals that give you grip and safety in the event of heavy impacts. The Freeride XL are just such pedals, which is exactly why they are at home in freeride/downhill. The Freeride XL is rust-proof and robust because the entire pedal - body and frame - is made of plastic.
