Description

The "PARCOURS 6" crossover e-bike is the premium model in Victoria's 2022 lineup, which won the ABC Award. This full-suspension model allows you to comfortably tackle urban areas, moderately rough terrain, and even direct cross-country sections. The fresh two-tone design and minimalist brand lettering capture the spirit of the times in terms of style.

High-quality components and thoughtfully designed features are what earn this pedelec its "Premium" designation. This includes the Bosch "Smart System," whose assistance levels are set via the "Kiox 300" color Display. Enhanced by the free eFlow app in the Victoria design, the "PARCOURS 6" becomes a control center when paired with a smartphone, guiding you, tracking your activities, and connecting to other apps and services.

The sporty Bosch "Performance CX" mid-drive motor guarantees full assistance with 85 Nm of torque. Even on steep uphill sections, it propels you forward at speeds of up to 25 km/h. It's powered by the Bosch PowerTube battery with 625 Wh, which is fully integrated into the Frame and can be removed from the top. Alternatively, the battery can, of course, be charged while remaining in the bike.

Comfort—a hallmark of the brand—also plays a major role in the "PARCOURS." The air-suspension system and the 60 mm-wide SCHWALBE "Al Grounder" Overlander tires provide optimal grip even on unpaved trails.

The 120 lux output of the LED Front Light allows you to extend your ride well into the darkness. A special highlight: the Front Light features a high-beam function that can be activated at the touch of a button on the Handlebars, which significantly improves visibility at night.

Sturdy aluminum fenders and the MIK system rack are testament to the bike's premium design. Reflective Stripes on the tires and the lighting system ensure roadworthiness. Up front, a whopping 120 lux illuminates even the darkest corners; at the rear, the bike is equipped with a Rear Light that includes a brake light function for added safety. This allows cyclists behind to react more effectively to sudden braking maneuvers, which are often unavoidable on rides.

Technical data

Battery capacity	625.0 Wh
Features	suspension fork, system carrier, chain guard, electronic sliding aid, fender
Torque	85 Nm
Colour designation	dark night
Main colour	blue
Secondary colour	black
Travel	100 mm
Gender	ladies
Gears	11-speed
Type	trekking bike
Wheel size	27,5 "
Material 1	aluminium
Engine power	250 W
Frame height	56 cm
Weight	29.500 kg
Permissible system weight	140 kg
Chainstay	500 mm
Toptube	619 mm
Wheel distance	1218 mm
Reach	425 mm
Seat tube	560 mm
Seat angle	73.0 °
Stack	635 mm
Steering tube	175 mm
Steering tube angle	68.0 °
