

Product data sheet

PETEC Starting fluid spray

Description

PETEC starting aid spray

For starting difficulties, protects engine and batteries, silicone-free

Reliable cold starting agent for all types of engines (petrol, diesel, two-stroke and four-stroke engines) e.g. cars, trucks, motorcycles, boats, mowers, construction and agricultural machinery.

Application: Shake can well before use, then spray directly into the air filter box or into the air intake pipe, wait briefly and start the engine. Do not spray directly onto spark plugs or heating flange. Observe the safety and technical data sheet!, **500ml spray can with 360 ° valve** (also applicable overhead)

Article number: 40603219

Original number: 70450

EAN: 4013558704500

EVP: **8.80 €**

Technical data

Design	application products
Range	intake system, ignition / glow system
Main colour	transparent
Container type	spray can
Content	0.5 l
Type	vehicle, motorcycle, truck, commercial vehicle, small devices, oldtimer, marine
Fuel-efficiency (A-G)	fuel, diesel, gas
Weight	0.320 kg
