

CONTEC Derailleur Cable "Shift HS"

Description

Robust and corrosion resistant

Derailleur gears require not only a good basic setting, but also intact cables to shift precisely. The CONTEC derailleur cable "Dutch Classic" is universally usable for all common derailleurs. The derailleur cable has a diameter of 1,2mm and is made of stainless steel. Therefore, it is particularly robust and corrosion resistant.

The CONTEC derailleur cable "Dutch Classic" is a useful addition to the spare parts fundus.
