Technical data

Features	insulated, reflective, breathable, elastic
Main colour	black
International size	M, L
Weight	0.033 kg
Type	toes

Description

No freezing toes when cycling
Protective warmth on the go: the "Winter" toes cover from FIZIK can simply be slipped over your cycling shoes when it's cold. This gaiter is extra thick, made of breathable upper material and is elastic. The Thermostretch material is 100% windproof and does not let water through.

The reflective, thermoplastic FIZIK logo provides better visibility in the dark. The toes cover has taped seams, a zipper on the back and openings for the pedal cleats.
For optimum performance, these gaiters were developed in collaboration with professional cyclists.
