Product data sheet

BRENNABOR Electric SUV "A-96e" Mod. 22

Article number:	02503266
Original number:	22083400
EAN:	4251507972796
EVP:	**3999.00 €**

Technical data

Battery capacity	630.0 Wh
Features	suspension fork, system carrier, electronic sliding aid, fender
Torque	85 Nm
Colour designation	teal green / burgundy
Main colour	green
Secondary colour	red
Travel	100 mm
Gender	gents
Gears	10-speed
Type	SUV
Wheel size	27,5 "
Material	aluminium
Engine power	250 W
Frame height	40 cm
Weight	29.100 kg
Permissible system weight	140 kg

Description

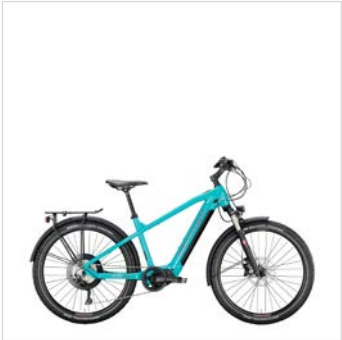

For steep climbs and challenging trails
In the mood for a sporty off-road adventure? BRENNABOR's "A-96e" belongs to the all-road/SUV class and is most at home on varied terrain ranging from paved roads to gravel trails. It's also designed for the shortest route straight across the field. The components are high-quality and robust—perfect for off-road use.

The SHIMANO "EP8" engine propels you forward with power. With 85 Nm of torque, you can confidently tackle steep climbs and challenging trails. Thanks to its central position in the bottom bracket area, the bike offers a natural riding feel—especially when combined with the 630-Wh Battery, which is fully integrated into the Frame. Its placement in the down tube promotes a balanced riding style. The 10-speed SHIMANO "Deore" drivetrain is there for fine-tuning your ride. Thanks to LinkGlide technology, the components are exceptionally durable and can withstand rough conditions—wear and tear doesn't set in until much later.

The fork, with 100 mm of travel, smoothly absorbs all bumps—such as tree roots, potholes, or simply the cobblestones on the way to the trail. It can be individually adjusted to the Fahrer's body weight—allowing it to perform at its best. The dropper seatpost can also be adjusted individually. With the push of a button on the handlebars, you can lower it when heading down steep descents—for full control on the trail.

Equipped not only with sporty features but also with purely functional ones, the "A-96e" is the perfect e-bike for everyday use. The MIK system rack, fenders, and LED lighting system round out the package. With a bright 80 lux front light and a Rear Light with brake light function, this bike gets you safely through city traffic at any time of day or year.
