

CONTEC Chain Guide "Guide.O S8000"

Description

Optimise your e-bike experience with the Guide.O S8000, a chain guide specially developed for Shimano E8000 mid-motors. This high-quality product combines lightweight aluminium with robust plastic to ensure consistent and efficient guiding performance. This effectively prevents your chain from slipping, even on dynamic rides.

The Guide.O S8000 is characterised by its precise workmanship. It is very easy to attach to the motor housing, which enables elegant and functional integration into the e-bike. The slotted holes for the motor housing and the nylon cage allow precise adjustment of the chain guide and minimise unnecessary friction. The Guide.O S8000 is suitable for use with chain rings from 30 to 40 teeth.
