EAN:	840332213545
EVP:	**119.95 €**

Description

Are you looking for a helmet that not only protects your head, but is also environmentally friendly? Then the QiO “Eco Stance MIPS” is just the right thing for you! Thanks to the advanced double-in-mold shell construction and the click-to-fit adjustment system, the helmet offers you plenty of safety without compromising on comfort.

We have thought of everything in the design - including the possibility of oblique impacts. Thanks to MIPS technology, the helmet shell can move relative to the head, which protects the head from rotational forces and certain injuries. Thanks to the insect net integrated into the 12 vents, your head is also protected from insects that can get into the helmet while riding. Reflective stickers round off the safety aspect perfectly.

Environmental friendliness is important to us, therefore our straps and padding are made from 100% recycled polyester.

We considered everything in the design - from recycled webbing and padding up to the possibility of oblique impacts.

Technical data

Range of application	city/trekking
Colour designation	black matte
Main colour	black
Head circumference	55, 56, 57, 58, 59 cm
Head circumference up to	59 cm
Head circumference from	55 cm
