Max. load	10.0 kg
Weight	1.780 kg
System	AVS
Capacity	28.00 l

Description

Lots of space & easy to assemble
The Daily L AVS from ATRANVELO is a rear bike basket perfect for trips to the lake with the family or for everyday use. With the pre-assembled AVS Adapter Plate, the 28-liter baskets can be quickly and easily attached to your system carrier. It offers enough space to carry a backpack with drinks and snacks or a large picnic blanket and can carry up to ten kilos.

Once at the lake, it can be detached from the carrier thanks to the simple click system and taken to the sunbathing area right by the water using the foam rubber-covered handle. The four feet keep the narrow-meshed baskets stable on the ground. It also has eyelets that can be used to attach straps for extra protection over the Basket. Net weight: 1,780 g.
