EAN:	4250311372730
EVP:	**148.95 €**

Description

Powerful Braking Performance for V-brakes
Optimal deceleration with minimal wear: that's what the "V-Stop" brake shoe from CONTEC delivers. The reason for this is its medium-hard rubber compound (Medium Compound). The Brake Shoe is designed for V-brakes (rim brakes). Although disc brakes are more common these days, rim brakes remain very popular with many riders. Their advantages include a lower price and easier maintenance.

The Brake Shoe's compound ensures consistent braking performance in both dry and wet conditions. This further enhances safety. After all, it allows the braking force to be precisely controlled at all times.

"V-Stop" is DIN-certified, symmetrical, and 70 mm wide. It can be mounted quickly and easily.

A brake shoe that provides good deceleration over a long period of time.

Technical data

Design	V-brake
Attachment	post type
Cartridge	no
Main colour	black
Material	rubber
Material 2	steel
Weight	1.444 kg
