Description

Flexible companion for bikepacking adventures
The "Mile Grinder Back 10" saddle bag from CONTEC is your companion designed for full stability when you set off on a bikepacking adventure. The very large-volume bag offers 10 liters of storage space to easily carry your luggage such as a change of clothes or tools. The flexible roll closure and several compression straps can be adjusted and tightened so that your luggage slides back and forth as little as possible, especially if you are traveling through rough terrain or over uneven forest paths.

You can easily attach the "Mile Grinder Back 10" to the seatpost of your bike using straps. There are non-slip attachments at the contact points between the seatposts and straps to ensure that the Seatpost is not scratched and the Bag does not slip off-road.

If you get caught in a shower, this is not an issue for the Saddle Bag, as it is made from waterproof polyester and PVC. You always have your rain jacket ready to hand in such cases, as it can be attached to the loop pull on the top of the bag and quickly pulled out if necessary. You can also attach a rear light there - ideal for cloudy visibility conditions.

Technical data

Design	saddle bag
Width	15.0 cm
Features	waterproof
Main colour	black
Height	16.0 cm
Length	61.0 cm
Material 1	plastic
Pack capacity	10.00 l
