

Product data sheet

CONWAY Electric trekking bike "Cairon T 4.5" (#1)

Description

Now new with belt drive - for silent and low-maintenance riding! Conway "Cairon T 4.5" is a powerful e-trekking bike made of lightweight aluminum, equipped with a Bosch mid-motor and a battery capacity of 625 Wh, which offers support up to 25 km/h. With a wheel size of 28", the bike ensures excellent riding characteristics.

The "Nexus" gear hub from Shimano with 5 gears and a belt drive enables smooth and low-maintenance gear changes, while the hydraulic Disc Brakes ensure optimum braking power and safety. The Suspension Fork with a suspension travel of 100 mm provides additional comfort and stability on uneven paths.

The permissible total weight is 140 kg, which underlines the versatility of the bike. Other features include Fenders to protect the rider in various weather conditions and the reliable and evenly illuminating light at the front and rear.
