VICTORIA Electric folding bike "Fylgran 7" (#1)

Description

The FYLGRAN 7 from Victoria is a prime example of how the folding bike has evolved over the course of time, making it truly usable for many purposes. The typical folding bikes of the 1970s were simple models that could be folded in the middle simply by loosening a Screw or lever. Even back then, the advantage of this process was obvious: the two-wheeler could be parked and stored in a much more space-saving manner than any other conventional bike.

With the advent of modern e-bike drive systems, the then simply constructed models have also undergone a technical revolution. Frames are many times more elaborately designed, and numerous internally routed cables have to withstand the continuous stress of hundreds and thousands of folding cycles. In addition, the pragmatic "form follows function" approach must increasingly bow to the creative ambitions of the product designer.

A prime example of this is the FYLGRAN 7, which for the first time at Victoria fully integrates the Battery and thus speaks a particularly clean design language. The advantages of a compact folding size, which is achieved by folding the main frame and lowering the Handlepost and Pedals, are also fully utilized here. To ensure that, like its FYLGRAN siblings, it remains inconspicuous in everyday use, it is equipped with a 5-speed hub gear and Straps. An additional Battery (Bosch PowerMore 250 in combination with the Performance SX / CompactTube 400 system specified for the FYLGRAN 7) can be used for practice-optimized use when sightseeing in foreign cities.

Article number: 02920006

Original number: KHA250006

EAN: 4251971149830

EVP: 3999.00 €

Technical data

Battery capacity	400.0 Wh
Features	frame lock, system carrier, deep entry, chain guard, electronic sliding aid, fender
Torque	60 Nm
Colour designation	fresh oliv
Main colour	green
Gender	unisex
Gears	5-speed
Type	folding bike
Wheel size	20 "
Material 1	aluminium
Engine power	250 W
Frame height	45 cm
Weight	24.900 kg
Permissible system weight	120 kg
Passage width	148 mm
Access height	398 mm
Chainstay	410 mm
Toptube	604 mm
Wheel distance	1112 mm
Reach	480 mm
Seat tube	415 mm
Seat angle	73.0 °
Stack	456 mm
Steering tube	200 mm
Steering tube angle	69.0 °
