Technical data

Mounting	front, rear
Main colour	black
Material 1	aluminium
Weight	0.170 kg

Description

SHIMANO "SLX" Brake Calipers

The components of the SHIMANO "SLX" groupset are perfect for all MTBs riders looking for quality and performance without spending a fortune. The "SLX" groupset has many of the functions of its more expensive siblings and impresses with its high stability.

The "BR-M7120" 4-piston Brake Calipers of the "SLX" family are prepared for a hydraulic brake system and a frame with post mount. The part is available with a choice of metal or resin pads and is suitable for both front and rear mounting.
