Technical data

Main colour	black
Material 1	plastic
Material 2	steel
Weight	0.054 kg

Description

Small, round and versatile

The "Mini Adapter" from KLICKFIX is a small and versatile adapter for Handlebars, Frames and Seatposts with a diameter of 15 to 60 mm. The advantage of the stainless steel band is that it also adapts to oval and other non-round tubes. Another advantage is that the adapter can be rotated in 90° increments - and so can the part on the adapter.

The manufacturer advises against using it on carbon or other lightweight seatposts and other tubes.
