

CONTEC Handlebar Tape "Classic Exclusiv BeeTee"

Description

Good grip with the right tape

Leather is like no other material associated with the history of the bicycle. Warming in winter and pleasantly breathable in summer, not only saddles, but also handlebar tape is traditionally made of it.

The CONTEC handlebar tape "Classic Exclusiv BeeTee" made of genuine leather has the excellent properties of this natural material. It is therefore particularly suitable as a long-lasting alternative to the synthetic handlebar tape used on most road bikes. The handlebar tape completes the attractive classic look of sleek steel road bikes.

No matter what bike it is used on, "Classic Exclusiv BeeTee" offers natural grip and a pleasant feel in any situation.

The handlebar tape can be attached to drop, North Road or Moustache bars. It is easy to wrap due to its flexibility. The adhesive layer on the underside ensures a good fit and a secure hold on the handlebar. Thanks to the holes on the top, good grip is a given and the escape of moisture is ensured.

The tape is available in a width of 30 mm (B30) in a set with 2 bar end plugs. It matches all colour schemes in the stylish colours coffee, gravy and honey.

Its long service life and pleasant feel make the CONTEC handlebar tape "Classic Exclusiv BeeTee" perfect and sustainable handlebar tape - for the classic weekend and sporty road bike alike.
