

Product data sheet

QiO Electric compact bike "Compact PE" (#1)

Description

The "Compact PE" from QiO stands for smart mobility with style. The powerful Battery mid-motor with Smart System and 545 Wh battery reliably takes you up to 25 km/h - quietly, efficiently and with low maintenance thanks to the belt drive. The continuously variable Enviolo TR hub gears ensure smooth shifting.

With 20" wheels and a sturdy aluminum frame, the compact bike is agile and comfortable. The generous step-through makes it easier for you to get on - ideal for anyone who prefers easy handling. Hydraulic Disc Brakes offer you safety in all weathers.

With a permissible total weight of 180 kg and practical equipment such as Fenders, the "Compact PE" is ready for any route you want to take. It can also be perfectly complemented and customized with our clever accessories.
