Product data sheet

by,schulz Stem Holder "SDS Adapter"

Article number:	03165875
Original number:	10588
EAN:	4251239307354
EVP:	**13.95 €**

Technical data

Main colour	black
Material 1	aluminium
Weight	0.012 kg

Description

Everything in its place
Tidy and right in view: The BY,SCHULZ "Stem Docking System", or "SDS" for short, allows stable mounting of attachments and accessories directly on the Stem.

For this purpose, a corresponding link is pushed into the mount of the SDS front cap from the outside when the Handlebar is mounted and fixed in the desired position with a clamping screw. The BY,SCHULZ "SDS Adapter" in combination with the "SDS Link" enables the mounting of GPS systems (e.g. Garmin), Front Light (e.g. Supernova, Busch und Müller), cameras (e.g. GoPro), which are then conveniently positioned directly in the field of vision in a stable and central position on the Handlebar.
