## PETEC Sealant "Nahtabdichtung "

### Description

#### PETEC Sealant "Seam sealing"

##### **multifunctional, based on MS-polymer, spray- and paintable**

For sealing body parts and overlapping seams. Also suitable for permanently elastic, adhesive seam sealing and for restoring the original structure after the accident repair, e.g. in engine compartment, trunk, floor assembly and wheel housings. Solvent-free (after drying no shrinkage of the material), immediately overpaintable (wet-in-wet) and permanently elastic after curing.

#### **Technical data:**

pot life/processing time: approx. 15 min.

curing system: humidity

curing/final hardness (at +22°C): 3mm / 24 hrs.

Shore A hardness: 40°

temperature resistance: -40°C to +100°C

processing temperature: +5°C to +40°C

storage capability: 24 months, store in a cool and dry place, **310ml cartridge, grey**
