CONTEC Curly Cable Lock "SLoc"

Description

"SLoc" cable lock from CONTEC

The "SLoc" from CONTEC is a simple spiral cable lock to connect your bike when you just fix a coffee at the bakery and get cash from the bank. Thanks to the silicone cover, you can wear the lock on your bike all the time, because the silicone protects the frame from unpleasant damage. In addition, it makes the lock UV-resistant and weatherproof.

With its comparatively long cable of 150cm length, you can also attach your bike to larger objects such as trees. With the reversible key, which is included in 2 copies of the lock, you can unlock the "SLoc" in no time. With a weight of 300g, the lock can be taken anywhere without disturbing you. Security level 3/10.
