Product data sheet

AXA Front Light "Blueline 50 E-Bike"

Article number:	07104285
Original number:	93952095KB
EAN:	8713249349176
EVP:	**50.95 €**

Technical data

Design	front light
Features	reflector
Attachment	fork crown / bridge attachment
Operating voltage	6,0, 6,5, 8,0, 9,0, 12,0 V
Range of application	bike
Main colour	black
Illuminant	LED
Luminosity	50 lux
Material 1	aluminium
Material 2	plastic
Weight	0.100 kg
Current type	DC
Power supply	E-bike battery
StVZO conform	yes

Description

Lots of light for optimum visibility
The "Blueline 50" from AXA is a compact and sporty dynamo-powered Front Light with a light intensity of 50 lux.

The Front Light offers a combination of an integrated reflector and optimum light distribution. Both features increase safety: you are more visible to other road users and the road in front of you is well lit.

The robust steel brackets of these front lights are suitable for any type of road. The light position is variably adjustable.
The Holder can also be removed or adapted to pre-installed brackets. This allows the light to be installed flexibly.

This version has been specially developed for use with a 6 V Battery on an e-bike.
With the Front Light's light cone, you can see 70 m away and can be seen at a distance of up to 4 km.
