

LOCTITE Threadlocker "248"

Description

LOCTITE Screw Retention "248"

Medium-strength, for connections up to M50

Universally applicable medium-strength Screw Retention, easy to apply as a drip-free Stick. The product is suitable for all metal threaded connections. It secures screws, nuts, and stud bolts against loosening due to vibration while also providing a seal. It is suitable for all metals, including passive materials such as stainless steel, aluminum, and galvanized surfaces. It has proven tolerance to minor contamination from industrial oils, such as engine oil, oil for corrosion protection, and Cutting Oil.

Technical Data: Color: blue, operating temperature range: -55 to +150 °C, breakaway torque: 17 Nm, hand-tightening time for steel: 5 min., hand-tightening time for stainless steel: 20 min., **9 g Stick, self-service packaging**
