Description

The CONTEC Limbo children's and Youth Helmet is ideal for the first bike trip with the whole family. Its sporty shape is based on the classic trekking helmet and is therefore suitable for young, active cyclists, but can also be worn in everyday life, for example on the way to school. Limbo is made from a lightweight in-mold micro-shell plastic construction with a thin EPS inner shell.

Thanks to the XY sizer (adjustment wheel) at the back of the Helmet, the Limbo can be individually adjusted in height and width. The adjustment wheel also has an integrated light that is powered by a battery. Another feature for increased visibility are the reflective straps. These are made from recycled PET water bottles!

The comfortable padding is washable and replaceable. The integrated insect net ensures that children are not distracted by small animals in the helmets and can concentrate fully on riding.

Limbo is available in four friendly colors. Each model has been painted with environmentally friendly, water-based paints.

Technical data

Features	aero, reflective, rear light
Range of application	youth / children
