

XSO Series

The Sealed Chain for Middle Displacement Motorcycle

- RK XSO Series are designed for **Middle Displacement Motorcycle** Models, lighten chain weight while securing adequate strength required, emphasizes **light feeling of acceleration**.
- RK XSO Series features **RX-Ring** that have "X" shaped seals which provide a **double barrier** to seal the lubrication, providing 2 times longer wear life than standard O-Ring chains.

RK Model	Application										
	100	200	300	400	500	600	700	800	900	1000	
520XS02				250-800							
525XSO					400-900						
530XS0Z1					400-1000						

428XSO

The Premium Replacement for 428 Genuine Chain

- RK GB428XSO is the best replacement for 428 Non-Sealed OE Chain, featuring **XW-Ring** that drastically improve the chain life, together with **Plating Gold on both Outer and Inner Plate** for the best protection against rust.
- RK 428XSO Series features RK's only technology of **XW-Ring**, which has two lubrication pools and three contact lips, which is a **triple barrier** to further seal the lubrication but also prevent debris to enter the chain.
- RK GB428XSO is compatible with **GOGORO 2 series** and available at GOGORO official repair shops.

RK Model	Application										
	100	200	300	400	500	600	700	800	900	1000	
428XSO				125~400cc
