

Product data sheet

polini Contrast spring "EVO-Slider"

Article number:	70394200
Original number:	243.093
EAN:	8054705079238
EVP:	13.30 €

Technical data

Amount of springs	1 pcs.
Design	spring
Main colour	blue
Weight	0.092 kg
Variation	contrast spring

Description

POLINI "EVO-Slider" counter-pressure spring

For rear, delivery including mechanical bearing. When this plain bearing is fitted, the counter-pressure spring no longer sits directly on the Pulley, which prevents the Spring from twisting. This significantly reduces the usual vibrations, and this sliding ring also results in significantly better shifting behavior and smoother engine running., **with 10% more pressure than standard**
