

SRAM Crank Set "Force AXS"

Description

The SRAM Force AXS Wide crank sets rely on a finely tuned 43/30-tooth combination with a 94 mm bolt circle, which enables precise and smooth shifting.

The carbon crankarms and the extended Wide DUB Axle with 47.5 mm chainline ensure high stiffness, low weight and additional tire clearance - ideal for modern road and gravel setups. The aluminium chainrings, optimized for 12-speed drivetrains, are presented in the elegant Unicorn Grey colour scheme and complete the overall picture of a high-performance, elegantly designed crankset.

Article number:	03332617
Original number:	00.6118.666.003
