

Product data sheet

CONTEC Grip "Ergo +"

Description

Relaxed to the target

The CONTEC grip "Ergo +" with its special wing-shaped design prevents the wrists from buckling and experiencing fatigue, even during long bicycle rides. The D2 two-component design with a soft gel mixture in the palm area ensures maximum comfort and shock absorption, while the hard gel mixture in the outer grip area provides good support.

The grips are available in pairs in black/grey and in different sizes. The perfect companion for extended cycling tours.
