

Product data sheet

CONTEC Handlebar "Sendai 90"

Description

CONTEC Sendai 90 handlebar

CONTEC Sendai 90 handlebar is made of aluminium and with a width of 630mm. The stem clamp is 31,8mm.

Due to backsweep of 41° you can grip the handlebar more ergonomic than one without this bend. The backsweep defines the bend of the handlebar in the direction of the saddle and is intended to avoid overstretching the hands.
