KAYZA MTB hardtail "Spodic 10" Mod. 22

Description

For simple, uncomplicated MTBs

Do you want simple, uncomplicated MTBs? Then the "Spodic 10" from KAYZA is just right for you. The modern geometry with a sporty riding position and agile handling make the bike a classic off-road athlete. The tried-and-tested bike shines with a new feature for the fresh bike season: internally routed cables. This gives the bike a clean and tidy look. The cables are also optimally protected from mud and sludge.

The 27.5" wheels can be steered agilely over moderate single trails and paths in the forest and can accelerate quickly on long straights. Thanks to the "BR-MT400" hydraulic disc brakes from SHIMANO, you can stay fast for longer - they brake the "Spodic 10" with pinpoint accuracy before corners and apply a firm grip when required. The "SX1" derailleur of the SRAM "Eagle" groupset is also simple - with just one chainring and 12 gears.

The SUNTOUR air Suspension Fork paves the way off-road. The SCHWALBE tires combination of "Rapid Rob" at the front and "Tough Tom" at the rear with a width of 57 mm provide good cushioning. Their fine, coarse tread pattern is made for not too deep forest floors and all unpaved paths - and the tires say a lot about the soul of the aluminium hardtail: simple MTBs.

Article number:	02704179
Original number:	22081041
EAN:	4251507974837
EVP:	1049.95 €

Technical data	
Features	suspension fork
Colour designation	stone grey matt / gold matt
Main colour	grey
Secondary colour	gold
Travel	100 mm
Gender	gents
Gears	12-speed
Type	hardtail
Wheel size	27,5 "
Material 1	aluminium
Frame height	51 cm
Weight	13.500 kg
Permissible system weight	130 kg
