Description

More comfort on rough terrain

The "SP-060 Slim Long Travel" seatpost from CONTEC offers passionate cyclists more comfort. With its integrated, sophisticated suspension, this carefully crafted model ensures a high degree of flexibility, which is particularly advantageous on uneven routes and rough terrain. This makes the parallel-sprung seatpost ideal for active touring riders and sports bikers.

The narrow-cut Parallelogramm Suspension Seatpost is made of aluminum and has an extended suspension travel of 36 mm. A rider weight of 70 to 85 kg is ideal here. However, with the help of replacement springs, the Seatpost also provides optimum suspension for riders weighing 50 to 70 kg, 85 to 100 kg or 100 to 130 kg.

In classic black, the "SP-060 Slim Long Travel" from CONTEC can be easily combined with saddles and frames in different colors.
