

SHIMANO Crank Set "Tiagra FC-4700"

Description

Crank Sets Tiagra FC-4700 from SHIMANO

The Tiagra FC-4700 from SHIMANO is a 172.0 mm long crankset. Because the crank is made of aluminum, it lasts particularly long and saves weight. There are two chainrings, with 36 teeth on the small one and 52 on the large one. Does your bike have a hollowtech II bottom bracket and a 10-speed driveset? Then this part will fit perfectly.
