

fi'zi:k Saddle "Terra Argo X5"

Description

Efficient & comfortable

FIZIK's Terra concept covers all the requirements of a gravel saddle in order to master long tires on uneven roads efficiently and as comfortably as possible. The short Argo nose of the "X5" gives you an aerodynamic, aggressive riding position - without any pressure on sensitive areas of the body. The cutout with mudguard provides support and keeps mud from swirling up at the same time.

The bendable saddle wings (Wingflex technology) provide a high degree of flexibility. They adapt to your leg movement when pedaling. This means there is no friction at the point where your thighs touch the saddle. The combination of "Type 2" padding, flexible carbon-reinforced nylon shell and an S-Alloy rail absorbs shocks and vibrations from rough terrain.

Article number:	07267370
Original number:	70E1S00A13A22
EAN:	8021890486615
EVP:	99.00 €

Technical data

Width	150.0 mm
Features	cutout
Range of application	MTB
Main colour	black
Suspension	no spring
Gender	unisex
Length	270.0 mm
Material 1	nylon
Rails material	aluminium
Shell material	nylon, carbon
Weight	0.272 kg
