

Product data sheet

CONTEC Spring "SP-060"

Description

Well suspended

The CONTEC "SP-060 Slim" and "SP-060 Slim Long Travel" suspension seatposts are ideally suited for riders with a body weight between 70 and 85kg. If you weigh more or less, however, the medium spring can be replaced with another variant, so that the post responds optimally. The replacement springs are available in the following hardnesses:

soft = 50-70kg rider weight

medium = 70-85kg rider weight

hard = 85-100kg rider weight

extra hard = 100-130 kg rider weight
