

CONTEC Tensioning Screw "Saddle.Part"

Description

Essential for frequent drivers

The resistant clamping screw of the brand CONTEC is compatible with all leather saddles of the series "Classic Exclusiv" - except the saddle model "Classic Exclusiv Touring DS".

The screw can be mounted quickly and easily. With your help, the leather cover of the saddle can be retightened if it has become loose or warped after intensive use of the bike. This restores functionality and seating comfort.
