

## BASIL Schoolbag Basket "Class"

### Description

#### Practical & safe

The "Class" is a trendy and practical bike basket from BASIL, which is particularly suitable for schoolchildren and students. It is an excellent school bag basket, but also a good companion for the journey to university or work. The unisex basket has a sturdy frame and is designed to be extra high.

This narrow-meshed baskets allows you to carry items safely on your bike. Thanks to its design, the "Class" reliably prevents school books, for example, from falling out and landing on the road.

It is quickly and easily mounted on the Carrier of the bike using the enclosed fastening material. This is done firmly and lengthways.

Thanks to the slanted side towards the saddle, it is easier to move: The baskets do not interfere with pedaling.

The "Class" is supplied with a removable strap that can be used to conveniently secure school bags, backpacks and other items. In addition, the reflective strip on the underside of the bike basket ensures that you are clearly visible even in the dark. This practical bike basket is available in black.
