CONWAY Gravel bike "Nyvo 2.0 C" (#1)

Description

The "Nyvo 2.0 C" is your gateway to the world of gravel biking—with a clean look, versatile performance, and everything you need for everyday use: Fenders, a Carrier, and a permanently mounted lighting system make the bike commuter-ready without losing its sporty character. The geometry puts you in a balanced, slightly stretched riding position that combines efficient pedaling with comfortable control. Thanks to a long wheelbase and short Chain Stays, the bike stays stable and agile even on varied terrain.

With the Shimano 2x10-speed drivetrain, you have enough gear range for steep climbs and fast sections, while the hydraulic disc brakes give you reliable control in any weather. The aluminum frame is sturdy, offers plenty of mounting points for bags and accessories, and is designed for wide tires. Fully integrated cables and a hidden neoprene pocket in the frame compartment round out the minimalist design.
