Material 1	paper

Description

FEBI transmission oil tester "198084"

Digital testers for checking the oil quality of transmission, engine, steering and hydraulic oils

AI-based online diagnostic system for checking the engine for soot, coking and metal abrasion in the Oil. The system also checks whether there is condensation, cooling water and/or fuel in the Oil. Can also be used to check brake fluids. The downloadable app can be used with a tablet, PC or smartphone, the device can be connected via Bluetooth or WLAN., **Test strips** (Febi Fluid Check #194935)
