EAN:	4251971178335
EVP:	**5299.00 €**

Description

Want to move around freely without compromising on comfort and style? The "Compact PXA+" from QiO makes exactly that possible. With the Bosch mid-drive motor and Smart System, you can ride effortlessly up to 25 km/h—supported by a quiet, low-maintenance belt drive.
A special highlight of this compact e-bike is the continuously variable Enviolo “Automatiq” hub gear system. It shifts automatically and adapts entirely on its own to your speed and riding style, ensuring a particularly relaxed riding experience.
With a capacity of 800 Wh, the Battery reliably powers you through everyday life and on tours. So you can even enjoy an extra lap after work. The sturdy aluminum frame, with its 20-inch wheels and hydraulic disc brakes, offers you safety and control—in any weather. Fenders are already built in.
The “+” in the name stands for a maximum Fahrer weight of 150 kg—ideal for anyone who needs a little more wiggle room. And with a gross vehicle weight rating of 180 kg, your daily life becomes even more flexible—you can carry quite a bit on it. Whether you’re using it as a Porter in the city or traveling with extra luggage—your “Compact PXA+” offers enough flexibility for both.
