

Product data sheet

CONWAY Electric SUV "Cairon C 4.0" (#1)

Description

Through city traffic in the morning, later along the bike path with luggage, and further out onto rugged nature trails on the weekend: The Cairon C 4.0 brings calm to days that rarely consist of just one route. This SUV e-bike stays composed, even as the route and terrain change. The Bosch Performance Line CX engine provides noticeable assistance when climbs get longer or headwinds disrupt your rhythm.

With its everyday-ready features, front suspension, and a sturdy aluminum frame, this bike inspires confidence. It feels comfortable, modern, and pleasantly mature—made for people who don't just use their e-bike occasionally, but see it as an integral part of their daily mobility.
