CONTEC Cable Cover "Shift S"

Description

Effective Protection Against Moisture

If you ride your bike regularly in all kinds of weather, your shifting cables are exposed to moisture. The CONTEC "Shift S" Cable Covers are sealed and, when slipped onto the ends of the outer casing, prevent water from entering and thus prevent corrosion and stiffness in the shifting cables.

The Cable Covers come in a bottle of 50—an ideal bulk pack for anyone who values a smoothly functioning shifting system.
