## CONTEC Dynamo "DL-150"

### Description

#### Reliable dynamo with a classic look

Those who ride their bike in city traffic need a functioning lighting system. The CONTEC dynamo "DL-150" in a stable, silver aluminium housing provides a reliable power supply for a 6 V and 3 W lighting system.

In wet weather conditions, the grippy rubber roller provides good traction and prevents slipping and the associated light loss. The CONTEC dynamo "DL-150" is suitable for left-side mounting on the frame or on the fork.

The wiring is simple at the 2 terminal contacts: The stripped cable ends are simply pressed into the mounts of the brass contacts (1+/1-) and secure the cables reliably against slipping out when released.

The built-in surge protection prevents the bulbs from burning out, thus increasing the reliability and longevity of the lighting system.

The "DL-150" is a robust and reliable dynamo that matches the look of classic bikes.
