Description

At 12.5 cm, it is the smallest mini pumps in our range and yet it will inflate your flat tires in just a few strokes: the Air Support Pen achieves a maximum air pressure of up to 8 bar or 120 psi. It takes up hardly any space in your luggage or can be mounted on the bottle cage eyelets of your bike with the included Holder to save space.

The twin valve head is compatible with Schrader and Presta valves. Hidden inside the particularly lightweight aluminum body of the Air Support Pen is a 7 cm long extendable tube, which can also be bent for better usability.
