Product data sheet

curana Mudguard set "CLite ilu"

Article number:	03414737
Original number:	04754
EAN:	5414171047545
EVP:	**115.50 €**

Technical data

Mounting	Set
Type	Stay-mounted mudguard
Attachment	Fork, Frame
Width	45.0 mm
Features	integrated rear light with stand light, Cable channel
Main colour	black
Suitable wheel sizes	28 "
Material 1	plastic
Material 2	aluminium
Weight	0.350 kg
Stay type	Safety strut

Description

Protection from dirt and road traffic
The CLite Fender Set from CURANA is a real multi-talent. Thanks to its deep profile, it can collect splash water better and allow it to flow downwards instead of letting it splash out at the sides. The matt black set with integrated rear lights is suitable for 28-wheels with dynamo operation.

The 90 mm long BUSCH & MÜLLER ilu rear lights are completely pre-assembled on this Mud Flap. The rear light cable runs through a Cable Duct under the Fender. The rear light is designed with a parking light function so that you can still be seen when taking a break at a dark intersection and continues to light up for a few seconds.

The experts at CURANA use the so-called sandwich construction method to manufacture the CLite mudguards. This means that the set consists of three layers, with the plastic layer being encased in aluminum. This makes it both light and very stable, and increases its torsional rigidity (how much a component twists under load).
