CONWAY Electric SUV "Cairon C 3.0" Mod. 24

Description

Versatile and impressively easy to handle - that's our "Cairon C 3.0". From the easy entry to the balanced riding style - all features that are advantageous for touring with our SUV e-bike through changing terrain.

For a clean look and to better protect the Battery from dust and dirt, it is fully integrated into the down tube of the E-SUV. It supports your tours with 625 Wh and can be recharged in the evening via a socket, or you can remove it at the bottom. With the four support levels of the powerful Bosch "Performance CX" engine and the fine gradations of the Sram derailleur gears, the Mittelmoto can support speeds of up to 25 km/h.

The tires are finely profiled to ensure the best riding performance and comfort even on unpaved roads. Together with the 100 mm Suspension Fork, they dampen the surface of field and forest paths as well as cobblestones well. To keep the E-SUV in check at speed, they allow the braking forces of the large hydraulic disc brakes to be precisely controlled.

However, the bike is only suitable for riding through the city thanks to the Fenders, the solid Contec LED lighting system and the Carrier with Spring Clamp.

Technical data

Battery capacity	625.0 Wh
Features	suspension fork, electronic sliding aid, fender
Colour designation	black metallic / desert matt
Main colour	black
Secondary colour	beige
Travel	120 mm
Gender	ladies
Gears	12-speed
Type	SUV
Wheel size	29 "
Material 1	aluminium
Engine power	250 W
Frame height	53 cm
Weight	26.100 kg
Stem length	90.0 mm
Permissible system weight	130 kg
Chainstay	455 mm
Toptube	640 mm
Wheel distance	1220 mm
Reach	468 mm
Seat tube	530 mm
Seat angle	74.5 °
Stack	658 mm
Steering tube	130 mm
Steering tube angle	67.0 °
