

Product data sheet

CONWAY Electric allroad "Nyvon 8.0 C" (#2)

Description

The Nyvon 8.0 C feels like a commute that doesn't end at the office door. Speed through the city in the morning, then after work, ride a bit further along side streets, paved paths, or take the longer route home: This e-gravel bike combines the daily commute with the freedom of athletic riding.

The Bosch SX drive remains pleasantly light on its feet and kicks in exactly when speed, headwinds, or small climbs demand a little extra. The carbon frame, combined with the 28-inch wheels, delivers a fast, responsive ride. At the same time, the lighting system, Fenders, Kickstand, and Carrier ensure high practicality for everyday use and make the bike a reliable companion for daily commutes.

Made for people who want to get ahead in their daily lives but don't always see the direct route home as the best option.
